HOME CARE

REVERSE
BEAEBZE
SERUM

Our researchers have selected the most effective substances to create a product with the best lightening effect. Each of these has specific characteristics and complementary properties (tranexamic acid, lactoferrin, aminoethylphosphinic acid (peptide), ferulic acid, niacinamide, glabridin, lipoic acid).

REVERSE SERUM FACE LIGHTENING SERUM

DESCRIPTION

The balanced combination of different synergistic active ingredients maximizes the effect of regulating skin pigmentation in the presence of existing hyperchromia and prevents its onset. The silky texture of the product makes it easy and pleasant to apply. The dropper allows for a quick and accurate application, directly on the pigmented areas.

INDICATIONS

- Age spots
- Sun spots
- Melasma
- Post-inflammatory hyperpigmentation
- Post-treatment of lightening medical procedures
- Prevention of post-inflammatory hyperpigmentation after invasive medical procedures (peeling, laser, etc.)

INGREDIENTS: AQUA (WATER), GLYCERIN, NIACINAMIDE, ETHOXYDIGLYCOL, TRANEXAMIC ACID, PROPANEDIOL, MACADAMIA TERNIFOLIA SEED OIL, LACTOFERRIN, BENZYL ALCOHOL, FERULIC ACID, SODIUM HYALURONATE, THIOCTIC ACID, SCLEROTIUM GUM, SODIUM HYDROXIDE, AMINOETHYLPHOSPHINIC ACID, DEHYDROACETIC ACID, TAMARINDUS INDICA SEED POLYSACCHARIDE, HYDROGENATED RAPESEED OIL, PHYTIC ACID, HYDROLYZED ALGIN, TOCOPHEROL, BUTYLENE GLYCOL, HELIANTHUS ANNUUS (SUNFLOWER) SEED OIL, GLYCYRRHIZA GLABRA (LICORICE) ROOT EXTRACT, CITRIC ACID.

LIGHTENING SERUM EXTERNAL DELICATE AREAS

DESCRIPTION

The lightening serum for external delicate areas contains the same active ingredients of the face serum, but calibrated to be applied on the delicate areas of the body.

INDICATIONS

- Lightening of external delicate areas
- Perianal area
- Mammary areola
- Armpits
- Post-treatment of lightening medical treatments
