WiQO[®]
FORMULATORS OF SKIN CONFIDENCE

PRX
THERAPY

REVITALIZED SKIN WITH A **HEALTHIER** APPEARANCE IN 3 STEPS AND WITHOUT NEEDLES

WiQO[®]
FORMULATORS OF SKIN CONFIDENCE

BIOREVITALIZE YOUR SKIN WITHOUT NEEDLES

After a clinical evaluation of your skin, the doctor is ready to develop a **specific protocol to meet your aesthetic needs.**

Every step of the **PRX-THERAPY** treatment is completely **painless.**

Improve your skin's firmness in just 15 minutes. From the very first treatment, your skin is gently stimulated to initiate an **immediate regenerative process for a healthier and more radiant appearance.**

1

STIMULATE REGENERATION

Your doctor gently and effectively stimulates the natural regenerative process of your skin.

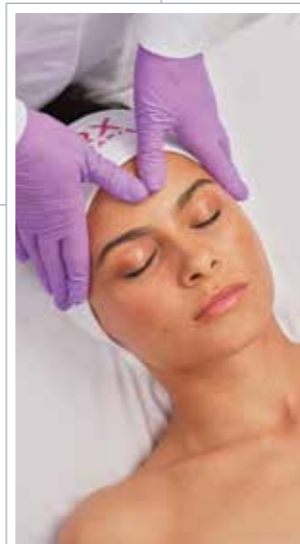

A session lasts only **10-15 minutes**, is completely painless, and is performed without needles.

After just one treatment, your skin appears **firmer and more radiant.**

15

Minutes to Stimulate
Your Skin

**The right protocol for you
awaits at this clinic;
ask for more information.**

2

NOURISH AND PROTECT

After the treatment, incorporate the **WiQo Nourishing and Moisturizing Cream for Dry Skin** into your daily beauty routine for a hydrating and protective action.

Support your skin's elasticity and smoothness with the **synergistic action of these active ingredients:** shea butter, echinacea extract, jojoba oil, wheat germ oil, and grape seed oil.

+52%
skin elasticity*

*100% of subjects improved in 4 weeks

3

MAINTAIN THE EFFECT

Maintain and enhance the effect of the treatment at home with the **WiQo Smoothing Fluid.**

The **glycolic acid** lowers the skin's natural pH, stimulating its return to the original value like an exercise.

Keep your skin active and in shape every day, like a fitness program at the gym.

1h

of exercise
for your skin*

*Physiological pH decreased by 32% for 1 hour.
Results from 20 subjects after 4 weeks of treatment.
