NOURISHING | PROTECTIVE | GENTLE  
For professional use

## INDICATIONS FOR USE

A necessary post-treatment for PRX-T<sub>33</sub>.

Recommended for its protective action on the superficial layers of the skin, it reduces the uncomfortable sensation of tight skin, helps strengthen the skin's barrier, and prevents moisture loss in skin affected by chemical peels or other aesthetic treatments. It is well tolerated, even by the most reactive skin types.

## ACTIVE INGREDIENTS

- / Shea Butter
- / Echinacea Extract
- / Jojoba Oil
- / Wheat Germ Oil
- / Grape Seed Oil

## IN THE CLINIC

- AIRLESS JAR
- 100 ml size for professional use
- 50 ml size for home use

## AT HOME, FOR YOUR PATIENTS

In the days following the treatment, patients may experience dryness due to the mild disruption of the stratum corneum caused by PRX-T<sub>33</sub>. The best way to prevent and treat this effect is to recommend WiQo Nourishing and Moisturizing Cream for dry skin.

- Immediate relief for skin altered by aesthetic treatments
- Highly nourishing
- Restores the skin barrier
