cosmeceuticals

PRX
THERAPY

ANTI-SPOT
Home care

INDICATIONS FOR USE

A serum based on tranexamic acid and other synergistic active ingredients that helps regulate skin pigmentation, reducing the appearance of existing spots and preventing the formation of new ones. It is recommended for age spots, sun spots, melasma, and post-inflammatory hyperpigmentation, which often appear after acne or burns/sunburns.

ACTIONS

- / Prevents and reduces dark spots
- / Protects from sun damage

-36%

HYPERPIGMENTATION
more even skin tone¹
